

Urban Area Coordination Offices and Contacts

If vehicles being requested through this application will be used to provide service (either wholly or in part) in a federally designated Urbanized Area (population 50,000 or more), local planning requirements and approvals must be met and obtained. The entity charged with providing this local planning function is the local Coordination Office. In such areas, applicants must notify their respective urban coordination office of their intent to apply for funding by submitting a copy of their application to the urban coordination office for local review and comment. Refer to the following table listing of contacts and the accompanying map to determine jurisdiction.

NOTE: Following the 2010 Census, the City of Carbondale is considered an Urbanized Area and is in the process of forming a formal Metropolitan Planning Organization (MPO).

Note: MPO Area boundaries are subject to change. Accordingly, the MPO is the final authority on jurisdictional boundaries. In cases of uncertainty, prospective applicants are advised to consult with the local MPO. In cases of marginal boundary incursions (very small portion of MPO area included in proposed service area) where local MPO review may be non-applicable or unfeasible, applicants are further advised to solicit a written finding from the MPO.
